It is stated in ENIEC’s statutes that: “Members of ENIEC approves on the person-oriented approach, on the ideological standpoint that care for elderly migrants should be based on the elderly migrants’ needs, dreams and wishes. Members of ENIEC pay respect to cultural and religious differences among elderly migrants. Members of ENIEC focus on integrating these differences in the elderly care and to facilitate an atmosphere of integration as an asset for everyone instead of segregation, wherever it is possible and is for the benefit of the elderly migrants”
